| <p><b>Quote of the month:</b></p> <p>"One of the privileges of the initiate of the Great Arcanum, and that which resumes them all, is Divination. According to the vulgar meaning of this word, to divine is to conjecture what we do not know, but its true significance is ineffable in its sublimity. To divine (<i>divinare</i>) is to exercise divinity."</p> <p>- Arthur Edward Waite, <i>The Mysteries of Magic</i></p> | <p><b>Magical Tip:</b></p> <p>"There are five essential aspects that contribute to the creation of consistently successful works of magic. These aspects are as follows: Personal Will, Timing, Imagery, Direction, and Balance."</p> <p>- Raven Grimassi, <i>Spirit of the Witch</i></p>   |

I was amazed at the uplifting energy of the attendees, organizers, and vendors. Many of the folks who came to my booth shared stories of their personal journeys.</p> <p data-bbox="1129 461 2003 560">What I found most astounding was how close to coming into their power they were, yet they could not see the value they brought to themselves and to those around them. So much talent, compassion, and sincere desire to make the world a better place was waiting to burst forth, yet was blocked by fear and doubt.</p> <p data-bbox="1129 584 2018 735">Some of these folks who were on the verge of self-awareness had readings done and through that mechanism, it was revealed where their purpose and passion resides. It created a shift that allowed them a renewed sense of inspiration and motivation to pursue the path of personal power. For some, the revelations created a deeper understanding and a confirmation of what they had been feeling all along - they just needed to hear it from another source.</p> <p data-bbox="1129 760 2003 859">It was exciting and inspiring for me to see the light go on, the clouds part, and the limits shed. The sense of empowerment and possibility was tangible, and all it took was a shift by way of a reading. I was honored to be part of their journey and in facilitating the movement toward their karmic destiny.</p> <p data-bbox="1129 883 2011 982">Those of you reading this who were a part of that magical moment, stay true to yourself and know that what you have come into this life to accomplish is a gift to the world. I hope to hear from you with updates on your progress and encourage you to continue discovering who you are and the value you bring to others.</p> <p data-bbox="1129 1006 1829 1029">My wish for you is that you find your truth and come fully into your power.</p> <p data-bbox="1136 1053 1306 1076">- Diane Wing, 2010</p> <hr data-bbox="1251 1133 1896 1140"/> <p data-bbox="1205 1208 1864 1234"><b>Get the information you need to step into your power!</b></p> <p data-bbox="1129 1261 1988 1334"><b>- A private reading gives you insight into yourself and the blocks that hold you back from coming fully into your power. Imagine having the information you need to recognize the gifts that are inside of you waiting to be expressed.</b></p> <p data-bbox="1129 1369 1982 1492"><i>"I just wanted to drop you a line and say how nice it was meeting you last weekend at Karmafest. **Arachne's Alchemy:** This section of the newsletter is dedicated to transformation. Your questions are always welcome and can be emailed to me at [DianeWing@forestwitch.com](mailto:DianeWing@forestwitch.com) to get a direct reply. **Relaxation is transformative.** Sometimes we just need a break - from our daily routine, from familiar environments, from our thoughts, from ourselves. One of the best ways to do that is to break away from the norm and experience something new. It can be something simple like taking a walk in a park you've never been to or taking a different way home. It can be about shutting off your mind for a bit and taking a break from the constant chatter. It can be drastic like touring Europe for several weeks. It can be something in between like a relaxing week-long cruise ;-). Whatever you decide, remember that it's important to incorporate relaxation into your schedule. In our workaholic society, it's so easy to forget that we need to take some time for ourselves, step back, and rejuvenate. In a relaxed state, our minds can conjure amazing ideas that would not have had a voice in the din of the ceaseless stream of thoughts. This is what meditation is about, and that is akin to taking a mini vacation, but on a grander scale, it's important to change your physical surroundings as well. The break will allow your true self to emerge and enjoy itself. Blessings, Diane Wing a.k.a. Arachne
